PROFESSIONAL SUMMARY

ServiceNow Administrator with 2+ years of experience in ITSM platform administration, Incident Management, Service Catalog configuration, and user access management. Proficient in Business Rules, Client Scripts, UI Policies, Flow Designer, and SLA Management. Seeking to contribute to organizational success by delivering effective ServiceNow solutions while advancing toward higher platform responsibilities.

PROFESSIONAL EXPERIENCE

ServiceNow Administrator – Starlite Infotech Limited *Dec 2021 – Aug 2023*

ITSM Implementation & Support · IT Services Client · Bengaluru, India

- Managed **100+** Incident tickets per month maintaining **95%+** SLA compliance through optimized assignment group routing and escalation workflows
- Reduced average Incident resolution time by **~20%** by configuring impact/urgency priority matrix enabling faster triage and dispatcher routing
- Built and maintained **15+** Service Catalog items and Record Producers for software access and hardware provisioning, reducing email-based requests by **40%**
- Administered user accounts, roles, and group memberships for **200+** platform users enforcing role-based access controls across the instance
- Developed **10+** Business Rules and Client Scripts to automate form behavior, enforce data validation, and trigger field-level automation
- Migrated **3,000+** records into the platform using Import Sets and Transform Maps achieving **98%+** data accuracy
- Participated in **4** upgrade cycles performing post-upgrade instance testing ensuring zero production disruption

Software Engineer Intern – Starlite Infotech Limited *Aug 2021 – Nov 2021*

Bengaluru, India

- Developed **5+** responsive web pages using HTML, CSS, and JavaScript reducing page load time by **15%**
- Integrated frontend UI with backend services using Python (Flask) handling REST API calls across **3** core modules
- Identified and resolved **20+** UI bugs during user acceptance testing achieving a defect-free final release

TECHNICAL SKILLS

ServiceNow: Incident Management · Service Catalog · Request Management · User Administration · Business Rules · Client Scripts · UI Policies · Flow Designer · Import Sets · Transform Maps · ACLs · SLA Management
Development: Python · JavaScript · React.js · Node.js · Express.js · MongoDB · REST APIs · HTML · CSS
Tools & Platforms: ServiceNow PDI · GitHub · Postman · VS Code · Stripe API

EDUCATION

Master of Science, Computer Science *GPA: 3.47 / 4.0*
Pace University, New York City Campus

Bachelor of Technology, Computer Science *GPA: 8.9 / 10.0*
Madanapalle Institute of Technology & Science

PROJECTS

Freelance Marketplace Platform – *Capstone Project, Pace University*

- Built a full-stack marketplace with **3** user roles, JWT-based authentication, and role-based access control
- Developed **20+** RESTful APIs for order management and integrated Stripe payment gateway with **99.9%** transaction success rate
- Reduced manual order processing steps by **60%** through end-to-end approval flows and automated status transitions

Tech Stack: React.js, Node.js, Express.js, MongoDB, Stripe API

AI-Powered ITSM Incident Triage Agent – *Personal Project*

- Built an autonomous Python agent using OpenAI's GPT API that monitors live system metrics (CPU, memory, disk), auto-generates IT incidents with zero human input, and triages them by category, priority, and SLA — addressing the gap where ServiceNow's built-in AI requires historical training data
- Deployed end-to-end with version control via GitHub, including a live incident logging system

Tech Stack: Python, OpenAI API, psutil, Git/GitHub
